

## Nitro Nation

Borne from passion and created for necessity, Nitro Nation fills a void that exists within the Canadian drag racing landscape. Our mission is to create professional, authentic and extreme Nitro-fueled competition that engages community; delivers value and ROI for our corporate partners; and ignites a nation-wide passion for the sport of drag racing. Top Fuel drag racing is the original extreme sport and Nitro Nation delivers the goods. Whether your ride runs on Nitro or you're a super fan with Nitro racing through your veins, you are a member of Nitro Nation. **\*Watch for the official launch of Nitro Nation in the New Year.**

## [www.DarkSideRacing.ca](http://www.DarkSideRacing.ca)

In the world of motorsports marketing there is no such thing as the "off-season" and Team Dark Side is hard at work behind the scenes developing our 2020 corporate programs and events schedule. Over the years we've been incredibly fortunate to work with strong Canadian companies like Canadian Tire, PartSource, Castrol Canada, Mr. Lube, Midas and the list goes on....The key to our success lies in our value-driven corporate programs and our ability to create events that are exhilarating and unique and deliver ROI through grassroots face-to-face interactions. Dark Side Racing corporate events are Nitro-fueled experiences that almost defy description. There's just no equal to the sensory experience of a

10,000hp 300mph Top Fuel dragster; the fellowship and comradery of a Track Day Experience; or the visceral rush of an Ultimate Fan Starting Line Experience. I invite you to click on the following link to download and review our [2020 Corporate Programs.pdf](#). Corporate bookings fill up fast once we move into the New Year so please get back to us ASAP to avoid disappointment. \*The following link takes you to our Corporate Programs PowerPoint and includes some great video footage. [Click here to download. Turn up the volume and enjoy the show!](#)

**We look forward to working with you and your team in 2020!**
